

Pedestals

Mobile, Undersurface & Freestanding

- BRC offers 100lb steel ball bearing over extension sliders on all box drawers and 150lbs on all file drawers. BRC pedestals exceed the BIFMA weight standard.
- BRC offers an anti tip wheel under the front edge of the bottom drawer as a standard feature. This design virtually eliminates tipping and saves cost and weight when compared to a standard industry counterweight solution.
- All sides of the laminate are edged and sealed for minimal off-gassing and maximum water penetrate protection.
- A pencil tray is included and has the ability to be mounted front, sides left or right. BRC also offers an optional five compartment, full size, drop-in pencil tray.
- BRC file drawers allow for both legal and letter size paper filing.
- All caster wheels are rated for over 95 lbs each offering a 475 lb total weight capacity.
- All pedestals are available with seat cushions.
- BRC offers Hudson & CL lock housing and core to match the furniture suite if required.
- BIFMA test results are available upon request.
