PET specifications

specification	details
composition	100% Polyester (40% PET-Virgin Fiber, 60% PET-recycled fiber)
fire resistance	ASTM E84 CLASS A EN 13501 CLASS B
features	Formaldehyde-free, No chemicals, Odor & dust-free, 100% recycled/recyclable, Impact-resistant/tackable
fire rating	ASTM E84-2017 12mm - Class A, Flame Spread 5, Smoke 170 25mm - Class A, Flame Spread 5, Smoke 90 BS EN 13501-1:2007+A1:2009 12mm - CLASS B-s2, d0
environmental	≥45% recycled PET fiber (from bottles) Off-cuts & manufacturing waste reused/recycled No formaldehyde binders, supports safer indoor air
acoustic performance	Reduces echo & reverberation 12mm Panel Absorption Coefficient: 125Hz:0.00, 250Hz:0.06, 500Hz:0.22, 1kHz:0.49, 2kHz:0.71, 4kHz:0.84
additional informaton	Directional grain Batch variations due to fiber blending and lay-up
