

Screen Guard

Maintaining a physical barrier has become more important than ever. BRC's Screen guards are one quarter inch thick clear acrylic that's easy to sterilize and wipe clean. Three mounting options means flexibility in any environment. Each bracket option raises the screen up by half an inch allowing for document pass through. An optional scallop is available to pass larger objects through.

HDS1A

- Maximum surface thickness 1"
- Screw mounted to underside
- Clamps to screen
- Clamp available in white, black or silver

Edge Mount

For use on the edge of any worksurface or counter

HDS2A
