

NoLita Dynamic Electric Height Adjustability

Overview

Bring style and sophistication to your office with a NoLita height adjustable desk. BRC's NoLita electric height adjustable desk offers you a balanced design of form and function. With the private office in mind, NoLita offers executives the option to sit or stand at its multi-surface independent work surfaces. Hidden frames and mechanisms allow for wire concealment and a clean aesthetic while blending with an upscale environment. This elegant solution starts with an enclosed full metal frame and an integrated frosted modesty panel.

The Bluetooth capable controller can be customized, reminding its user to stand throughout the day and even counts the calories burned. With so many options and extras to choose from, including a knife edge work surface, NoLita is truly a high-performing product that will bring style and distinction to your office.

Standard Switch Features:

- Lift up to raise, push down to lower
- 4 memory positions
- Digital height display
- LED light strip reminder
- Bluetooth
- Desk control app compatible

NoLita Dynamic Electric Height Adjustability

Specifications

Features

- BRC manufactures Electric Height Adjustable Tables.
- Available in all standard BRC finishes, with an upcharge for any custom finish.
- All exposed edges are manufactured with thermo rigid laser applied 3/32" (2mm) thick edging.
- Units have 1" (25.4mm) leveling.
- BRC products meet ANSI/BIFMA e3 Furniture Sustainability Standards, BRC is Level® 2 Certified
- Grain direction is horizontal on tops while vertical for modesty.
- Standard casegoods construction is 3/4" thick gables and modesty panels in low-pressure laminate (LPL).
- All low-pressure laminate panels are 45lbs density and finished both sides.
- Most BRC low-pressure laminate finishes can be matched to high-pressure laminate.
- Tops are available with two core/surface material options of 1" (25.8mm) LPL or 1-1/8" (27mm) HPL.
- Have an overall height adjustability from 25.75" to 46.25".
- Modesties come standard as a concealed frosted acrylic on either right or left side.
- Dual motor with a lift capacity up to 250lbs.
- Anti collision enabled - table will stop if obstruction is encountered.
- Dual worksurface with 4 position memory handset included with Bluetooth and desk control app.
- The two worksurfaces are controlled by two separate controllers. One cannot control both.
- Power ratings: 450W, 3.75 Amp working, 0.1W standby. Cord length 125".
- Table bases are metal and have a durable scratch resistant, heat cured powder coat.
- Metal uprights are 14 gauge tubing with a low profile foot that is constructed of drawn steel quiet and smooth operation at only 55db.
- Voltage power is a standard 120 Volt table.
- Shipped partially assembled.

Optional Features

- Left, right and center grommets.
- Rechargeable battery for wireless operation.
- Able to use knife edge at 1.25" (31.75mm) HPL top only.
