

# MESA

HEIGHT ADJUSTABLE TABLES

abrc

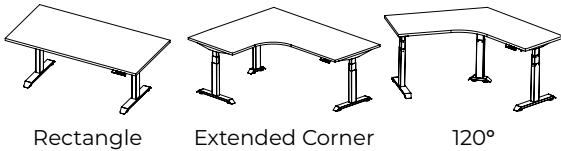

## ERGONOMIC . VERSATILE . PRODUCTIVE

Mesa is BRC's most popular height adjustable desk. With the push of a button, Mesa can adjust from sitting to standing, and everywhere in between. The practice of breaking up long periods of sitting with bursts of standing has been shown to reduce shoulder and back pain, improve circulation and lessen fatigue. This health positive option combines style and design with effortless adjustment and sturdy construction.

BRC offers Mesa in multiple height ranges, with options of T-Leg or C-Legs, the ability to integrate into cabinets and laminate leg surrounds as well as a wall mounted version. These not only completely change the look of a desk but also the functionality as well, taking it to the next level!

## Specs

### T-LEG BASE

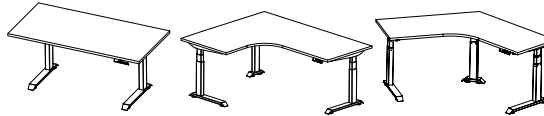

Rectangle

Extended Corner

120°
