Price Guide - 2026 R1

Thank you for choosing BRC

Established in 1979 and incorporated in 1983, BRC Group has grown into a leader in the research, development and manufacturing of high quality ergonomic office furniture. BRC is a Canadian-owned private company with modern manufacturing facilities in Georgetown, Ontario, Canada.

BRC is a forerunner in blending environmental initiatives with the manufacturing of renewable and recyclable products. BRC uses materials and manufacturing processes which virtually eliminate Volatile Organic Chemical (VOC) emissions in the office environment. Raw materials are responsibly sourced, assuring that only the best and most sustainable components are converted to finished goods. BRC is committed to developing and offering the best-value products for the middle and higher end markets.

From OEM solutions to obscure designer requests to simply striving to be better, BRC provides creative and innovative customized solutions to complement any environment and use. Flexible manufacturing offers the ability for BRC to respond to client's special needs rather than having standard catalogue solutions. A wide collection of textiles, laminate finishes and wood veneer allows companies and individuals to express their brand and culture through a unique signature look.

All furniture is designed and manufactured to meet or exceed ANSI-BIFMA standards. Standard construction uses a combination of 3/4" and metal to metal commercial grade connections for solid enduring assembly. The newest edge banding technology, in which the edge tape is melted directly to the edge of the board, enables BRC to manufacture products with virtually invisible glue lines.

The BRC Team works hard to earn and keep your business - our success depends on it. If you have any questions or inquires, please contact us at info@brc.group or toll free at 1-877-260-4309.

We appreciate your business and look forward to hearing from you.

Wire Management & Power & Data Location: Media Tables

Wire Management

Wire management for media tables can be accommodated through the back panel and the front base. Both have removable panels for easy wire access and routing. Wire managers (AWMCA) are included with tables that are ordered with power modules. Additional items, such as power bars, are not included but can be ordered separately, if required, using the Accessories Price Guide on BRC's website.

Power Locations

By default, electrical modules, when specified from this price guide, are located as per below. If one electrical module is specified it will be located on the center. If there are two specified, they will be distanced equally in the center.
