Thank you for choosing BRC

Established in 1979 and incorporated in 1983, BRC Group has grown into a leader in the research, development and manufacturing of high quality ergonomic office furniture. BRC is a Canadian-owned private company with modern manufacturing facilities in Georgetown, Ontario, Canada.

BRC is a forerunner in blending environmental initiatives with the manufacturing of renewable and recyclable products. BRC uses materials and manufacturing processes which virtually eliminate Volatile Organic Chemical (VOC) emissions in the office environment. Raw materials are responsibly sourced, assuring that only the best and most sustainable components are converted to finished goods. BRC is committed to developing and offering the best-value products for the middle and higher end markets.

From OEM solutions to obscure designer requests to simply striving to be better, BRC provides creative and innovative customized solutions to complement any environment and use. Flexible manufacturing offers the ability for BRC to respond to client's special needs rather than having standard catalogue solutions. A wide collection of textiles and laminate finishes allows companies and individuals to express their brand and culture through a unique signature look.

All furniture is designed and manufactured to meet or exceed ANSI-BIFMA standards. Standard construction uses a combination of 3/4" and 1" material and metal to metal commercial grade connections for solid enduring assembly. The newest edge banding technology, in which the edge tape is melted directly to the edge of the board, enables BRC to manufacture products with virtually invisible glue lines.

The BRC Team works hard to earn and keep your business - our success depends on it. If you have any questions or inquires, please contact us at info@brc.group or toll free at 1-877-260-4309.

We appreciate your business and look forward to hearing from you.

Warranty, Terms & Conditions

BRC is pleased to offer one of the most competitive warranties in the industry. All furniture products carry a 12 year limited structural warranty. BRC furniture panel and table electrical cabling carry a 3 year limited warranty. All moving user adjustable components carry a 5 year limited structural warranty. All other electrical or electronic elements of BRC furniture carry a 1 year limited warranty.

For full warranty details, terms and conditions, please visit www.brc.group/warranty

Shipping Rates & Policies

Emotion product should be assumed to ship knocked down. Assembly of the worksurface to the base frame and the frame foot to the base frame assembly will be required on Viva product. Mesa product will be shipped with the worksurface separate and be accompanied by one box for a 2 leg table, and two boxes for a 3 leg table. Assembly instructions are included in the box or available for download on our website at www.brc.group/installation

Shipping costs are calculated based on net order value and destination. In many cases, the freight cost may be included in your order. For detailed information, visit our website at www.brc.group/freight

Emotion Height Adjustable Tables

BRC's Emotion series is a tested and proven height adjustable solution both in the lab and in the field. The product has sustained over 20 years of success and during that time undergone constant refinements and improvements. Rugged construction and reliable electronic components have been tested and certified to ANSI BIFMA & CGSB standards assuring the highest quality.

A Workstation for Everyone

Stationary desks and workstations present a problem to natural instinct. The human body is designed to benefit from motion which is important for spinal health, improving circulation and reducing muscle fatigue. Height adjustable tables can encourage movement by offering the user multiple sitting and standing positions.

Another benefit is the ability for the user to adjust the desk to the optimal working height for their body both in a sitting and standing position. Even two people who are the same height may have different resting elbow positions and in turn prefer different sitting and standing heights. The benefit is that a workstation can accommodate virtually all users at a cost that is only marginally higher than a fixed height desk providing users an opportunity to break their static posture without leaving the work area.

Height adjustable tables can also provide an inclusive atmosphere for everyone. BRC's line of Mesa and Viva height adjustable electric desks provide a modesty free ADA solution that is wheelchair accessible. In addition, these product lines offer a collision free mechanism that stops table movement when resistance is encountered, preventing injury.

File Drawers

Load Considerations

Filing drawers can be one of the most convenient storage items in the office environment. Careful consideration must be paid to how the drawers are loaded, how much load and when to secure the cabinet to an additional support structure. File drawers must always be loaded from the bottom first. This puts the center of gravity lower and reduces the tipping hazard. Depending on application, cabinets should be secured to adjacent cabinets, a wall or another support structure for additional assurance. All drawer cabinets can be susceptible to tipping so careful planning is essential for prevention. Contact your BRC representative for more information.

Look for this warning label placed inside all file drawers manufactured by BRC

Capacity & Filing Options

BRC File drawers can accommodate letter and legal hanging file folders. Standard size file drawers in 30", 36" & 42" widths include two side to side hanging bars and two front to back hanging bars (24" wide drawers include only one of each). The side to side hanging bar can be positioned to fit letter and legal files. The front to back hanging bars can be positioned to accommodate two rows front to back of letter and legal depending on drawer width. Pedestal file drawers include one side to side hanging bar that can be positioned to accommodate letter and legal side to side. Pedestal file drawers can accommodate letter only front to back.

STANDARD SIZE FILE DRAWER CAPACITY			
NOMINAL WIDTH	INTERIOR WIDTH	INTERIOR DEPTH	MAXIMUM LOAD (LBS)*

FILE RAILS ACCOMMODATE LEGAL SIDE TO SIDE; FILE BAR CAN BE USED TO ACCOMMODATE LETTER SIDE TO SIDE

FRONT TO BACK ACCOMMODATES LETTER ONLY

*Loads are expressed as weight rating for filing, not bottom loading

Product Safety

All of BRC's storage products that contain box drawers and file drawers include full extension drawer slides. This presents a unique challenge as the further a drawer is extended, the further away the center of gravity is from the main body of the product. Depending on the load, the storage product may tip over. There are several ways to prevent this from happening and BRC recommends the following solutions be considered depending on the installation. For more information on your specific layout, contact your BRC representative for advice.

Counterweights

Counterweights are designed to help balance a load in a drawer or several drawers. Depending on the size of the storage product and the load it intends to carry, a counterweight may be the best option. For smaller cabinets, freestanding or mobile, BRC recommends using a counterweight to prevent the product from tipping over. Some of BRC's mobile storage options already include a 5th wheel caster in the front of the drawer which prevents tip over. In this case, the counterweight will not be listed as an option on the individual product page.

Ganging

When cabinets are installed in a long run or back to back, ganging them together may be the most cost effective solution. When installing, the drawers can be removed to gain access to the inside back or side gable of the product. After leveling the cabinet layout, by simply using self tapping wood screws with or without pilot holes, items can be ganged together.

Wall Mounting

Where applicable, wall mounting can provide a cost effective solution to using a counterweight and provide greater tip over protection. For taller cabinets, bookcases and lockers BRC recommends wall mounting to provide a secure and safe environment. Ensure the wall structure contains wood studs or a wood backing. Attaching to metal studs alone is not recommended. Remove the drawers to gain access to the inside back or side gable of the product. After leveling the cabinet, simply use self tapping wood screws with or without pilot holes and secure the cabinet to the wall. Replace the drawers to complete installation.

Wall Mounted Products

Wall mounted items require special consideration before installation. Any product attached to the wall, especially overhead mounted items, must be anchored and secured to the wall to ensure safety and stability. BRC provides the following guidelines & warnings when using wall mounted products:

- This product must be anchored to wall to ensure stability & safety.
- It is the owner and installers responsibility to ensure that the wall type and construction is of sufficient strength to carry the loads of any wall mounted products and their contents.
- Failure of the wall and anchors to support all imposed loads may result in property damage or personal injury.
- BRC can provide size and empty weight of its products only. As wall blocking is considered a building construction process, BRC cannot provide recommendations in this respect and cannot be responsible for damage or injury that may occur as a result of improper installation and/or blocking.

Look for this warning label on all wall mounted BRC products

Mobile Product Instability

Mobile items on casters such as flip top, personal and movable tables of any type and storage items of any type may present an instability hazard if not secured correctly while in use or in storage. Flip top tables or training tables of any type, are inherently more unstable when folded. BRC provides the following guidelines & warnings when using mobile products:

- Lock casters immediately after moving. Do not leave the casters unlocked when in use or in storage.
- Motion may increase the instability of any item with casters. If the wheels hit an obstruction the table's forward momentum often causes overturn, especially if the item is not equipped with wheel extensions. Exercise strong caution while moving these items.
- Use caution when abrupt level changes in the floor are present (such as a doorway or room threshold) as caster failure or tipping may result.
- Do not stand, sit or lean on mobile items for support. They are not intended for this use and personal injury or property damage may result.
- Mobile units that feature height adjustable elements must be lowered to the minimum compressed height when moving to prevent instability. It is also recommended the user remove all computer equipment or other accessories to prevent possible weight imbalance or damage to equipment.
- Failure to follow the guidelines above may result in property damage or personal injury.

Look for this warning label on all mobile BRC products

Cleaning & Maintenance

BEST PRACTICES

To keep your furniture products looking their best, BRC recommends the following general care and maintenance:

Low Pressure (LPL) LAMINATES Cleaning:

Dust laminated surfaces off prior to cleaning. Wet a damp cloth with water, a mild soap or one of our approved cleaning products. Do not use abrasive cleaners as they may scratch or affect the surface appearance. Wipe the surface with the grain (where applicable) using a dry soft cloth.

Approved cleaning products: Glass Plus®, Dawn®, Pledge®, Mr. Clean®, Windex®,
For disinfecting surfaces use products such as: LYSOL®, VIREX®, PURELL®, VIROX®

After use of the above disinfectants ensure that the surfaces are wiped with a damp cloth to remove any product residue.

Take note that any product with Hydrochloric, Sulfuric, or Phosphoric acid may permanently damage the surface. Abrasive elements and excessively acidic or alkaline solutions should be avoided. Prolonged exposure to wet surfaces and/or direct contact with water should be avoided.

High Pressure (HPL) LAMINATES Cleaning:

Dust laminated surfaces off prior to cleaning. Wet a damp cloth with water, a mild soap or one of our approved cleaning products. Do not use abrasive cleaners as they may scratch or affect the surface appearance. Wipe the surface with the grain (where applicable) using a dry soft cloth.

Approved cleaning products: Glass Plus®, Dawn®, Pledge®, Mr. Clean®, Windex®,
For disinfecting surfaces use products such as: LYSOL®, VIREX®, PURELL®, VIROX®, Fantastik®, multi-surface disinfectant, Clorox® Disinfecting Wipes, Caviwipes™, Cavicide™

After use of the above disinfectants ensure that the surfaces are wiped with a damp cloth to remove any product residue.

Take note that any product with Hydrochloric, Sulfuric, or Phosphoric acid may permanently damage the surface. Abrasive elements and excessively acidic or alkaline solutions should be avoided. Prolonged exposure to wet surfaces and/or direct contact with water should be avoided.

Acrylic Tiles And Panels:

Dust regularly to keep surfaces free of dust particles. Clean any dirt or stain with a damp cloth. Do not use chemical cleaners or window cleaners as it may alter or permanently affect the surface appearance.

Tempered & Laminated Glass:

Dust regularly to keep surfaces free of dust particles. Clean any dirt or stain with a damp cloth. Do not use chemical cleaners or window cleaners as it may alter or permanently affect the surface appearance.

Edge Trim:

To remove minor scuff marks and general dirt from bases and connectors, use warm water and a soft cloth. Do not use harsh abrasive cleaners, as they may cause permanent scratches on the surface.

Painted Metals:

Clean these products, use a damp cloth, using only a small amount of lukewarm water if necessary. Abrasive elements and excessively acidic or alkaline solutions should be avoided. Prolonged exposure to wet surfaces and/or direct contact with water should be avoided.

Standard Fabrics:

Standard Care Label W-S. Clean with water based cleaning agents, foam or pure, water free solvents. Vacuuming or light brushing is recommended to prevent dust and soil buildup.

Bleach Cleanable Fabrics:

Bleach is an effective disinfectant, which means it kills most bacteria, fungi and viruses. When fabrics need to be disinfected or sterilized, use a 1:10 household bleach-to-water solution.

Do not saturate
or soak furniture
with cleaner

Use spray or
damp cloth
only

Wipe with damp cloth
using fresh water
after cleaning

Standard & Custom Sizing

BRC has built a reputation on custom tailored product based on our standard offering. Many sizes not listed in the Emotion catalog can still be ordered without requesting a custom quote. The next two pages are meant as a guide to enable users to specify and order a custom size right from the price guide. Follow the guidelines below for specifying and ordering sizes that are not listed in this guide.

Worksurface Size & Pinch Clearance

Standard worksurface sizes listed in the size chart on each page are actual sizes. For instance, a 60" x 24" height adjustable table is manufactured to 60.00" x 24.00". This applies to all products in this guide - Mesa, Viva, SoHo and NoLita.

All Mesa and Viva height adjustable tables are sized to allow for one inch of pinch clearance at the back and on each side of the table. This allows for wire access behind and to the side of the table and provides clearance to avoid pinch points.

Custom Size Availability

Most products can be ordered in 0.25" (1/4") increments in either width or depth depending on the sizes listed in the price guide. Custom increments are available between the minimum and maximum sizes listed on the price page. For instance, in the example below, a Mesa table that has a minimum width of 46" and a maximum width of 82" is available in any size in between the minumim and maximum, for example, 54.25" wide or 70.75" wide. When specifying custom, indicate the actual size required, no additions or deductions will be made by BRC. For example, a custom specified width of 65" will be made at 65.00" exactly.

The example details width only but custom size availability applies to depth as well. If applicable, all variables (width, depth & height) can be customized together in one product. For example, the below item could be ordered with a custom width and depth.

Custom sizes outside of the listed minimum and maximum may still be available but require a quote from BRC. Please contact your representative or send your inquiry to quotes@brc.group.

Next Size Up Pricing

When specifying a custom size, use the pricing applicable to the next size up listed in the price guide. For instance, for a 50.5" width overall, the next largest standard width is 54" at \$400 list, so for a 50.5" depth you would use the \$400 list price.

For more information on next size up pricing, please contact your representative or send your inquiry to quotes@brc.group.

Custom Sizing

Order Sample Code

Ordering custom sizes is as easy as placing the size you want in the ordering code and adding an "SP-" prefix to the code. The example below shows how a height adjustable table can be customized and ordered. MWEE Viva product is available in widths from 26" - 82" and depths from 23" - 35". In the order code for a custom size, "MWEE" becomes "SP-MWEE".

Economical Electric Height Adjustable Tables

Standard Features:

- LPL & HPL Worksurfaces available with overall height adjustability from 22.75" to 48.75"
- Programmable anti collision enabled - table will stop if obstruction is encountered
- Full undersurface adjustable width frame prevents lateral movement
- Power ratings: 456W, 3.8 Amp working, 0.5W standby, 108" power cord
- Includes cable management ties for under surface attachment
- Four position memory handset with digital height display
- Modesty free design meets ADA accessibility requirements
- Dual motor with a lift capacity up to 275lbs.
- Optional modesty panel is 10" high

Basic Dimensions:

T-LEG, C-LEG

- Column: 1.9" x 3.0" [48mm x 76mm]
- Foot: 2.95" x 23.65" [75mm x 601mm]
- Foot height: 1.59" [40mm]

FRAME

- 1.25" horizontal top frame

Finishes:

BASE

- Powdercoat silver, black & white

WORKSURFACE

- 1" LPL & HPL in all standard BRC laminates

General Product Overview:

Table bases are metal and have a durable scratch resistant, heat cured powder coat paint finish. Metal uprights are 14 gauge tubing and incorporate plastic sleeves throughout for quiet and smooth operation. Low profile foot is constructed of heavy gauge welded steel, with waterfall front and back edges. Feet have oversize levelers for greater stability.

LMP Laminate Modesty Panel Application Guide

The optional 'LMP' laminate modesty panel for Mesa Height Adjustable Tables is sized according to the condition at each end of the panel. Conditions include no storage, surround, and integrated storage applications. Select one 'LMP' option code by identifying the condition at Side A and Side B of the application.

Use this guide to determine the correct 'LMP' option code for your table application. The selected option code automatically sizes the laminate modesty panel to suit the application.

Step 1 - Identify Side A and Side B

Use the diagrams below to identify Side A and Side B for your table application.

NOTE: The "LMP" laminate modesty panel applies to the main worksurface only on 3-leg tables.

Step 2 - Identify the condition code for each side

Identify the condition at Side A and Side B, then note the corresponding code.

Side A Code	Side B Code	Condition	Modesty Panel Inset
A0	B0	No Storage	2.5" (Standard)
A1	B1	6.75"W Surround	6.75"
A2	B2	16"D Integrated Storage	16"
A3	B3	18.75"D Integrated Storage	18.75"
A4	B4	24"D Integrated Storage	24"
A5	B5	30"D Integrated Storage	30"

NOTE: The inset dimension corresponds to the distance the modesty panel is inset from the end of the worksurface.

LMP Laminate Modesty Panel Application Guide

Step 3 - Select the LMP option code

Combine the Side A and Side B codes using the matrix below to determine the correct 'LMP' option code.

		Side B Condition					
		No Storage (B0)	6.75"W Surround (B1)	16"D Storage (B2)	18.75"D Storage (B3)	24"D Storage (B4)	30"D Storage (B5)
Side A Condition	No Storage (A0)	LPMA0B0	LPMA0B1	LPMA0B2	LPMA0B3	LPMA0B4	LPMA0B5
	6.75"W Surround (A1)	LPMA1B0	LPMA1B1	LPMA1B2	LPMA1B3	LPMA1B4	LPMA1B5
	16"D Storage (A2)	LPMA2B0	LPMA2B1	LPMA2B2	LPMA2B3	LPMA2B4	LPMA2B5

Summary

The Amplify Telescoping Metal Surround is specifically designed to encase the T-leg of Mesa Height Adjustable Tables. When installing the surround, the foot and the upper cantilever of the T-leg must be removed. Due to this design detail, there are specific application guidelines that must be followed to ensure proper support. Please refer to the application layouts below for guidance.

 Surround can only be used with T-leg Mesa Height Adjustable Tables

Correct Applications:

Incorrect Applications:

OVERALL SIZE			
WIDTH	DEPTH	HEIGHT	PRICE
10.5"	3.5"	25" - 44"	\$771

Features & Specifications

- 16 gauge steel construction for upper and lower sleeve with one inch of leveling
- 3/4" fasteners included
- Accommodates 23" & 29" deep BRC Mesa Sit-Stand Height Adjustable T leg configuration only
- Can not be used in a freestanding application
- The surround can be retrofitted on existing BRC Mesa Sit-Stand Height Adjustable bases (T leg only) directly in the field

No Charge Options

- Available in silver finish only

 SPECIAL NOTES

- When specified with the Amplify Privacy Shroud, the maximum table height is 46" to maintain full concealment of the lift column
- Handset requires reprogramming as per page 2 of install guide

Viva

Premium Electric Height Adjustable Tables

Standard Features:

- LPL & HPL Worksurfaces available with overall height adjustability from 22.25" to 48.25"
- Dual motor with a lift capacity up to 300lbs and 1.5" [38.1mm] per second travel
- Anti collision piezoelectric sensor stops movement when obstruction is encountered
- Power ratings: 450W, 3.75 Amp working, 0.1W standby. 125" Cord length
- C Base two and three leg table configurations
- Whisper quiet motion at only 55 decibels
- Foot design matches all Viva line product

Optional Features:

- Bluetooth with Desk Control App
- Rechargeable Battery for wireless operation
- Multiple handset options
- Left, right and center grommets
- Keyboard tray adaptable
- Modesty panel is 10" high

Basic Dimensions:

C-LEG

- Column: 2" x 3" [50.8mm x 76.2mm]
- Foot: 2.88" x 24" [73.2mm x 609.6mm]
- Foot height: 1.375" [34.9mm]

Finishes:

BASE

- Powdercoat silver, black & white

WORKSURFACE

- 1" or 1.5" LPL & HPL in all standard BRC laminates

General Product Overview:

Table bases are metal and have a durable scratch resistant, heat cured powder coat paint finish. Metal uprights are of 14 gauge tubing 2" thick by 3" wide. Low profile foot is constructed of drawn steel, with waterfall front and back edges. The interior of the foot is double walled with 11 gauge steel supports. These feet have easy to access levelers for ease of installation and balancing. ANSI Bifma and CGSB (Canadian General Standards Board) tested and qualified. This ensures that BRC products adhere to the highest standards of quality and durability in North America. UL Certified electronics.

Viva

Manually Operated Height Adjustable Tables

Standard Features:

- LPL & HPL worksurfaces with overall height adjustability from 24" to 36"
- Top access crank handle & grommets are standard (UTS)
- Handle turns 6 revolutions for each 1" of travel
- C Base two and three leg configurations
- Foot design matches all Viva line products
- No electrical power requirements

Optional Features:

- Left, right and center grommets
- Undermount crank handle position

Basic Dimensions:

C-LEG

- Column: 2.0" x 4.0" [51mm x 102mm]
- Foot: 2.88" x 24" [73.2mm x 609.6mm]
- Foot height: 1.375" [34.9mm]

FRAME

- 1.25" x 1.25" [32 x 32mm] spans full width

Finishes:

BASE

- Powdercoat silver, black & white

WORKSURFACE

- 1" & 1.5" LPL & HPL in all standard BRC laminates

General Product Overview:

Table bases are metal and have a durable scratch resistant, heat cured powder coat paint finish. Metal uprights are of 14 gauge tubing 2" thick by 4" wide. On all tables, inserts are of 14 gauge tubing and incorporate Teflon-like slides for smooth operation and low maintenance. All table bases have a 1" x 3" horizontal modesty bar of 16 gauge steel attached to each leg to assure strength and stability throughout the entire range of motion. Low profile foot is constructed of drawn steel, with waterfall front and back edges. The interior of the foot is double walled with 11 gauge steel supports. These feet have easy to access levelers for ease of installation and balancing.

ANSI Bifma and CGSB (Canadian General Standards Board) tested and qualified. This ensures that BRC products adhere to the highest standards of quality and durability in North America.

Optional Extra

- Leg provides 1" of leveling
- Laminate codes - M1: 1" LPL, H1: 1" HPL (top only)
- Woodgrain runs horizontally on the longest side of the table
- Specify style - 'ER' - extended right, or 'EL' - extended left
- Top access crank handle/grommets are standard. Undermount option (UTS) does not remove top access holes
- Available in all standard laminates
- Available in standard metal paint finishes
- For sizes not listed, specify actual (not nominal) size in product code
- For straight front instead of standard curved, add code *SF* to options
- For 3" grommet (AG30A), add option code(s) 'GL', 'GC' and/or 'GR', add +\$91 per grommet
- For laminate modesty panel, add option code 'LMP' and +\$409
- For under surface handle operation, add option code 'UTS' and +\$284

Viva

Incremental Height Adjustable Tables

Standard Features:

- LPL & HPL worksurfaces with overall height adjustability from 24" to 36" in one inch increments
- C Base two and three leg configurations
- Foot design matches all Viva line products
- No electrical power requirements

Optional Features:

- Left, right and center grommets

Basic Dimensions:

C-LEG

- Column: 2.0" x 4.0" [51mm x 102mm]
- Foot: 2.88" x 24" [73.2mm x 609.6mm]
- Foot height: 1.375" [34.9mm]

Finishes:

BASE

- Powdercoat silver, black & white

WORKSURFACE

- 1" & 1.5" LPL & HPL in all standard BRC laminates

General Product Overview:

Table bases are metal and have a durable scratch resistant, heat cured powder coat paint finish. Metal uprights are of 14 gauge tubing 2" thick by 4" wide. All table bases have a 1" x 3" horizontal modesty bar of 16 gauge steel attached to each leg to assure strength and stability. Incremental adjustment is made by removing the socket cap bolt on the back of each leg, setting height required and replacing bolt. Low profile foot is constructed of drawn steel, with waterfall front and back edges. The interior of the foot is double walled with 11 gauge steel supports. These feet have easy to access levelers for ease of installation and balancing.

ANSI Bifma and CGSB (Canadian General Standards Board) tested and qualified. This ensures that BRC products adhere to the highest standards of quality and durability in North America.

Viva

Fixed Height Tables

Standard Features:

- Fixed height base at 29" height overall with 1" worksurface (29.5" with 1.5" worksurface)
- LPL & HPL worksurfaces
- C Base with two and three leg configurations
- Foot provides 1" of levelling

Optional Features:

- Available with casters
- Left, right and center grommets

Basic Dimensions:

C-LEG

- Column: 2.0" x 4.0" [51mm x 102mm]
- Foot: 2.88" x 24" [73.2mm x 609.6mm]
- Foot height: 1.375" [34.9mm]

Finishes:

BASE

- Powdercoat silver, black & white

WORKSURFACE

- 1" & 1.5" LPL & HPL in all standard BRC laminates

General Product Overview:

Table bases are metal and have a durable scratch resistant, heat cured powder coat paint finish. Table surfaces are supported by a 3/4" x 1 1/2" steel frame designed for strength and ease of connections. Metal uprights are of 14 gauge tubing 2" thick by 4" wide. On all tables, inserts are of 14 gauge tubing and incorporate Teflon-like slides for smooth operation and low maintenance. All table bases have a 1" x 3" horizontal modesty bar of 16 gauge steel attached to each leg to assure strength and stability throughout the entire range of motion. Low profile foot is constructed of drawn steel, with waterfall front and back edges. The interior of the foot is double walled with 11 gauge steel supports. These feet have easy to access levelers for ease of installation and balancing.

ANSI Bifma and CGSB (Canadian General Standards Board) tested and qualified. This ensures that BRC products adhere to the highest standards of quality and durability in North America.

Executive Electric Height Adjustability with Storage

Standard Features:

- Raised dual one box, one file (BF) locking pedestals
- Anti collision piezoelectric sensor stops movement when obstruction is encountered
- Dual motors use 0.1W standby and are whisper quiet at 55db when in use. 125" Cord length
- LPL & HPL worksurfaces
- Floating half modesty panel
- Height range from 27" to 50"
- 300lb lift capacity with 1.5" per second travel
- Premium handset (DPG1C) included
- Bluetooth with Desk Control App

Optional Features:

- Left, right and center grommets
- Rechargeable Battery

Basic Dimensions:

BOX FILE PEDESTAL

- 4" high post feet with 1" leveling
- 15.75" wide x 23.375" high x variable depths

Finishes:

COLUMN & POST FEET

- Powdercoat silver, black & white

WORKSURFACE

- 1" LPL & HPL in all standard BRC laminates
- 1.25" HPL knife edge

General Product Overview:

Table base frames are metal and have a durable scratch resistant, heat cured powder coat paint finish. Table surfaces are supported by a 3/4" x 1 1/2" steel frame designed for strength and ease of connections. Metal uprights are of 14 gauge tubing 2" thick by 4" wide. On all tables, inserts are of 14 gauge tubing and incorporate Teflon-like slides for smooth operation and low maintenance. One box, one file pedestals are locking and raised on 4" post feet with 1" leveling capability. All standard BRC laminates, handles and metal colours are available. Worksurface width and depth are overall dimensions; pedestals do not protrude past this.

ANSI Bifma and CGSB (Canadian General Standards Board) tested and qualified. This ensures that BRC products adhere to the highest standards of quality and durability in North America.

Dynamic Electric Height Adjustability

Standard Features:

- LPL & HPL Worksurfaces available with overall height adjustability from 25.75" to 46.25"
- Anti collision sensor stops movement when obstruction is encountered
- 0.75" Gap between worksurfaces to allow for pinch clearance
- Dual motors use 0.1W standby and are whisper quiet at 55db when in use
- LPL, HPL and knife edge worksurfaces
- Concealed frosted acrylic modesty panel
- 250lb lift capacity
- Premium handset (DPG1C) included
- Bluetooth with Desk Control App

Optional Features:

- Rechargeable Battery for cordless operation
- Left, right and center grommets

Finishes:

LIFTING COLUMN, TRIM & FRAME

- Powdercoat silver, black or white

WORKSURFACE & FASCIA COVER BASE

- 1" LPL & HPL in all standard BRC laminates
- 1.25" HPL knife edge on three sides; flat edge on back side

Trim:

- Optional knife edge trim does not cover entire perimeter; see graphic below for details

General Product Overview:

Lower cover fascia is made from LP laminate available in all BRC standard finishes. Lower cover fascia end and top trim caps are metal and painted to match the lifting columns. Table base internal frames are metal and have a durable scratch resistant, heat cured powder coat paint finish. Table surfaces are supported by a 1 1/4" tubular steel frame designed for strength and ease of connections. One or both surfaces are available to be height adjustable. The concealed modesty panel is available as standard on one surface only. Due to the nature of this product, extended lead times may apply. Please contact orders@brc.group for details before ordering.

ITEM CODE	CONTROLLER
MWEE7123M1NS	DPG1B

Product Notes

All Viva electric tables ship standard with controller DPG1K. SoHo and NoLita electric tables ship standard with DPG1C. To specify an optional controller, add the model number (eg: DPG1B) to the end of the Viva product code.

These controllers are not available for Mesa electric tables.

Contact BRC for a link to download the desk control app for iOS and Android.

Height Adjustable Table Support Brackets

Height adjustable tables present unique challenges when mounting to adjacent furniture. BRC's table support brackets allow direct connection to Gallery Panels, tall storage, credenzas and other items while allowing full height adjustable functionality. These brackets have been designed specifically for our Mesa T leg and C leg bases but may be applicable to non-BRC product. Contact a BRC representative for full details.

T Leg Rear Mount Bracket

Product Code: MABRA

For use on Mesa T leg tables 24", 30" and 36" deep. Connection to rear panel or similar is permanent by way of screws or bolts. Connection to T leg is a clamping mechanism that does not damage or alter the base.

C Leg Rear Mount Bracket

Product Code: MABCA

For use on Mesa C leg tables 24", 30" and 36" deep. Connection to rear panel or similar is permanent by way of screws or bolts. Connection to T leg is a clamping mechanism that does not damage or alter the base.

C Leg or T Leg Side Mount Bracket

Product Code: MABSA

For use on Mesa C leg or T leg tables 24" and 30" deep. Connection to side panel or similar is permanent by way of screws or bolts. Connection to T leg is a clamping mechanism that does not damage or alter the base.
